Hancock Destroys 9

Last 'Jackpot' For Slots

Nine slot machines and boxes of parts in first class condition were reduced to this pile of junk Wednesday afternoon by sledge hammer wielding deputies of the staff of Hancock County Sheriff Joseph H. Manypenny.

Seized by deputies March 21 in a locked storeroom in Weirton, the "one armed bandits" and repair parts were valued at an estimated \$5,000.

The "slots" were seized along with more than 200 pinball machines in the Weirton storeroom and are reportedly owned by the City Coin Service Co. of Bridge-

Deputies destroyed the slot machines and parts with sledge hammers yesterday afternoon in the garage of the sheriff's office in New Cumberland.

Though the machines were fairly old, the parts were in firstclass condition, well-oiled and wrapped in Pittsburgh newspapers bearing a 1959 date.

Deputies said the parts were considered very valuable because manufacture of the slots

Keep Ev And Charlie Handy

It has been reported that some Eastern Seaboard Republicans in the U.S. Senate had a meeting last week to talk about the problem of Ev and Charlie. Ev is Everett Mc-Kinley Dirksen, the Illinois Republican who leads Republicans in the Senate. Charlie is Charles A. Halleck, the Indiana Republican who leads Republicans in the House.

The problem is how to keep these two from representing the Republican party on television and in statements quoted by newspapers. That is, the Eastern Seaboard Republicans think this is a problem, because they feel the "prairie" conservatism of the two men is unpalatable to their constituents.

This isn't the first time the main core of Republican strength in the United States has upset the party faithful along the Eastern Seaboard. Divergent views on party positions have kept Republicans sniping at each other steadily.

It was the source of the bitterness that kept the late Sen. Robert A. Taft from getting the party's presidential nominations. Eastern Seaboard Republicans came up in turn with Wendell Willkie, Thomas Dewey and Dwight Eisenhower, to make sure their state of mind would prevail. And in 1960, Richard Nixon thought it was necessary to go into a last-minute conference with New York Gov. Nelson Rockefeller, to prove he had the great seal of Eastern Seaboard approval before he went to Chicago to nail down the nomination.

ALL THIS comes under the heading of practical politics and no questions asked un-

til it gets to be a question of how people will respond to something more imaginative than the tired me-too doctrine in high favor with so many Eastern Seaboard Republicans.

There always is the possibility and all too often the probability that they know nothing about political sentiment in the rest of the country. It is as though they thought they had the slate pencil and the rest of the country was a blank slate.

It isn't that way at all.

Sen. Dirksen and Rep. Halleck may leave much to be desired as TV personalities. Perhaps as political spokesmen they don't light up the eastern skies.

But so far they've been making sense with their reactions as spokesmen for the minority in Washington. They've given the impression that two-party politics in Congress is where the "art of the possible" faces its moments of truth and Republicans don't believe the Kennedy Democrats, with non-Kennedy Democrats subtracted, have enough votes to make possible much of what they've been talking about.

UNTIL SOMEONE better comes along, Republicans in Congress had better stick with Ev and Charlie. There's nothing wrong with Eastern Scaboard Republicans, except that they don't know much about politics west of the high rise in Pennsylvania where Eastern Seaboard Republicans pack no more weight than any other kind.

They're what we "prairie" Republicans think of as provincial, if they know what we

Conspirators, Go Home!

There is this that can be said for certain about the prospect of anti-Castro military action in Cuba:

It will be hard for Russian, Czechoslovak and Chinese Communists who have been carrying on the dirty work of the Communist Conspiracy in Cuba to pass themselves off as Cubans if mobs begin to chant for foreigners to go home.

This will be a heaven-sent opportunity, if the cards fall right, to advertise to the world that the ideological colonialism of the Communist Conspiracy is as hard to defend under attack as the economic colonialism of the old-time colonial powers.

Chinese, Russians and Czechs have been buzzing around Cuba in big-brother roles under the Castro regime. Perhaps they have conducted themselves so much more shrewdly than people of their type ever conducted themselves before that the Cubans will love them like brothers if bullets start whining.

BUT IN ALL probability, it will be the way it always is when big brothers and little brothers fall out in quarrels over outsiders. Cuban blood will be thicker than Communist ideological water. The Chinese, Russians and Czechs do not love the Cubans. They are in uha only to discomfit the United States.

For the United States to try to drive them out would be the height of folly. But for other Cubans to try to drive them out by overthrowing the Castro regime is Cuba's best bet to gain its independence - not to

to convert Cuba to satellite status in the Communist Conspiracy, the United States should emphasize Cuban independence. Cubans should be made to know in all ways and in all things that they are responsible for themselves: that their liberator at the turn of the century never again wants to be identified as the sponsor of any Cuban gov-

THE NEXT GOVERNMENT of Cuba might be captured by the Communists, too, or it might drift into the Communist camp for lack of direction. If so, there would have to be still another attempt to save Cuban independence, the only goal the United States can afford to be identified with from now on.

If Cubans, themselves, drive out the conspirators, there can be no basis for complaint. One of the tragedies of the Spanish-American War was the failure of the United States to identify Cuba's liberation with Cuban rebels. For a generation and a half many Cubans have been as likely to think of the United States as their conqueror as

This time, Cubans, themselves, should liberate other Cubans.

Federal Control Was No Myth

The toughest argument against federal aid to schools always has been the threat of federal control of education.

The power of the purse always is felt sooner or later, and federal aid without eventual federal control is out of the

Now it is clear that federal control was no myth. It was not a bogey thought up by people who wanted to keep the federal government at arm's length for other reasons.

FEDERAL CONTROL of education became an immediate threat as soon as the aid-to-education issue moved from the ab-

stract to the concrete. A year ago it was segregationist southerners proposing to use federal aid to education to help segregate schools. Federal aid to education was blocked as soon as a Negro congressman, Adam Clayton Powell of New York City, introduced an amendment prohibiting the use of federal funds to help

segregated schools. This year, it was spokesmen for the Roman Catholic Church who blocked federal aid to education by arguing that if aid were forthcoming parochial schools should share in it.

Tacoma, Wash., man, in one-man fight against parking meters, says they are unconstitutional. He insists they require payment before violation and before arrest and therefore constitute a form of bibery. Also contends convictions are based on "word" of meter and that this constitutes hearsay

Next year it would be something else that would block federal aid to education, perhaps the realization that if one group of religion-centered schools were entitled to aid all religion-centered schools would be entitled to aid.

This is the form federal control of education would take-not a handful of educationists dictating curriculums and policies but minorities putting pressure on government to get what they wanted out of federal

It would be control with a vengeance, because it would be the kind that makes minority blocs that push it and pull it

AS LONG as these groups are split up 50 ways in 50 states, they are manageable. But give them one massive target in Washington, and they would be insuperable.

That's why federal aid to education is being given up as a lost cause this year and seems likely to be given up as a lost cause permanently, even among educators willing to accept dictation from pressure groups in return for distributing federal billions, which would be their way of bringing pressure to bear.

BEHIND THIS CRISIS are NAACP charges that such influential unions as the Brotherhood of Railway and Steamship Clerks have 150 "segregated all - Negro locals with separate racial seniority rosters . . . The practice of segregation is so well institutionalized in this union that the designation of the Negro lodges all over the country begins with the numeral six .

Furthermore, says the NAACP report by Herbert Hill, its labor secretary, (whom the White House has been telephoning): "Today in virtually every large urban center in the United States. Negro workers are denied employment in the major industrial and residential construction projects because they are, with some few exceptions, barred from membership in the building trades craft

'This includes the Brotherhood of Electrical Workers, the Operating Engineers, Iron and Structural Steel Workers, Plumbers and Pipe Fitters Union. Plasterers and Lathers, the Sheet Metal Workers Union, the Boiler Makers, etc.

An analysis of the government projects using these unions shows that their members work everywhere from Cape Canaveral to outlying radar and rocket tracking stations.

NEGRO LEADERS, who have been meeting in New York this week, have a simple strategy.

They want Negro workers admitted to all these unions and they want them integrated in the tens of thousands of installations and feeder factories. Or they will demand public hearings by Vice President Lyndon Johnson's Committee on Equal Employment Op-

He used a soft-pedal again Wednesday. This may displease those who want him to get tougher with Russia. But the fact is he's up against a tough situation and he is a realist.

Since last month, when he called on the Soviet-backed Reds in Laos to agree to a cease-fire, he's been waiting for the Russians, who pull the strings, to halt the Communist rebel attacks on the American-backed Laotian gov-

ernment. Two days ago a State Department spokesman said the United States now is concerned about a step-up in Soviet arms deliveries to the rebels and about any fur-

ther delay in a cease-fire. This was tougher than Kennedy wanted to sound. At his news conference Wednesday he threw cold water on it. He said there hasn't been a marked increase in Soviet supplies and expressed hope for

a cease-fire answer this week. These are some reasons that can explain Kennedy's non-belligerent attitude:

In the first place, the United States is not quite an innocent party in Laos. In a fashion it has been doing on one side what the Russians have been doing on the

Tax Proposals Will Try President's Popularity

Within a few days the American people will get for the first some Lasic information which will enable them to begin

to make up their minds whether or not they like their new President. For what has

happened thus hasn't really been decisive. It doesn't matter much whether David Lawrence the Kennedy household hires a French chef or whether the peace corps is going to convert native Africans to civilization. What dose matter is whether the fed-

eral government is going to col-

lect more tax money out of the

worker's take-home pay. The President is planning to send his tax message to Congress next week. It has been delayed for unexplained reasons, though it is widely suspected that the drafts of the message proposed by the President's task forces and advisers - the "theoretical" boys - have run into some penetrating criticism from members of Congress - the "practical"

It's always wise to have a lot of idea men around. Perhaps, however, the comment of Prime Minister Macmillan in a speech in Britain not long ago apropos of the Socialist Labor Party is worth repeating as applicable to the current situation in this

Mr. Macmillan said the Socialists have had some "original and sound ideas, but the trouble is that some of the ideas that are original are not sound and some of the sound ideas are not origin-

Tax rates and regulations are at present a complicated affair that cannot be defended as either equitable or productive of adequate tax revenues.

There isn't, to be sure, any tax system that will yield enough revenue for the spenders.

The important fact today about new taxes is not whether they are going to be made more equitable as between different classes of taxpayers but whether forthcoming changes will disrupt the economic stabiliy of the country for a long time to come.

Far from being a cure for recession, tax changes can prolong a recession by producing a disequilibrium in the economy.

The average citizen will be affected in many ways and particularly in his purchasing power. It seems ironical that, with all the talk about increasing consumly on this country for a war next er power to buy, the government should be considering a tax pro-Further, if the United States did gram that will curtain incomes get embroiled, some of the Westfor many people and many busiern allies, particularly the French nesses.

If Congress goes ahead with pension changes and medical care for the aged, the Social Security taxes on the whole program will go up by nearly 33 per cent on a person who makes a little less

than \$90 a week. Thus, the man who earns \$4,-800 a year or more now pays \$144 a year in Social Security taxes, but the amount the federal government will take from him will

go up to \$193.75. This means that the employer and the employe together will pay nearly \$100 a year more than they do now. This may subtract billions of dollars in purchasing

power. Perhaps the most irritatingchange is coming in the plan to withhold taxes on interest and dividends at the source.

Low-income persons, especially retired people who do not have much income, will find their regular monthly stipend decreased. Also, if the companies have withheld more than later will be found due in taxes on certain individuals, a lot of red tape and plenty of time will be necessary before the money improperly collected will be refunded.

LIKEWISE, this means more trouble and expense for the businesses concerned. It is not clear as yet whether this procedure will apply to interest on savings accounts but it does mean a lot more work without recompense.

There's another item that will cause much controversy. It is the proposal to remove the limited tax credit on dividends. The argument against full taxation of dividends is that the citizen is taxed doubly if he puts his money in a corporation but not if it is invested in a partnership or a proprie-The argument being made here in tavor of it is that

"double taxation" is a myth. Another plan of the administration calls for an increase in certain taxes which will add to the cost of tires, tubes and the like. This isn't going to help business, either.

THERE ARE, to be sure, some tax havens that need correction. by individuals who stay there for relatively brief intervals and get certain benefits anyway

Also, there is need to eliminate causes in what is defined as "ordinary and necessary expenses"

Such a reform process tends to upset many established practices that have long been considered legitimate and equitable but which the government, in its zest for more tax collections, feels it will have to modify.

All this adds up to painful change - an impact on the economy which may not be felt for some months but would appear to be inevitable.

Once the tax message of the President is sent to Congress, it will be interesting to see what happens to the popularity curve months and some will be further of the President in the Gallup

Murder, Suicide Ruled In Ravenna Shooting

RAVENNA, Ohio (AP)-Charles Shefelton, 75 years old and senile, apparently didn't recognize his nephew when the younger man came to his door with a weekly delivery of groceries.

Shefelton shot and killed the nephew, Ray L. Shefelton, 67, of Alliance Wednesday, then furned his 12-gauge shotgun on himself, Pertage County authorities reported.

Coroner John R. Turner ruled murder and suicide. The coroner said the post-mortem showed the uncle was senile and apparently failed to recognize his nephew. who arrived one day earlier than usual with the groceries at the Deerfield residence

Neighbors told investigators the uncle usually greeted callers carrying his shotgun. The weapon was found next to his body

gate said today he has received inquiries from 15 investment houses on a \$166,300 municipal bond issue scheduled for sale Monday to finance the city's share of the \$6 million California Hollow-West End Freeway project.

The auditor, as the city's fiscal officer, will open the sealed bids at noon in his office at City Hall. The award to the low bidder is subject to ratification by Council. Sale of the bonds was authorized by Council in legislation enacted March 20. The money will be used principally to pay back a federal loan advanced to the city several years ago to finance preparation of detailed construction plans. The planning work was performed by Michael Baker Jr., Inc., a Rochester firm of consulting en-

gineers. Initial estimates placed the city's share of the freeway at over \$500,-000. But a series of concessions by the State Highway Department, plus a \$100,000 grant from county commissioners, helped reduce the local participation to furnishing the construction plans.

The bonds will be retired through 1971. The first installment of \$16, 300 will mature Dec. 1, 1962. The city will retire \$16,000 annually on Dec. 1 from 1963 through 1965. Installments of \$17,000 each will fall due on Dec. 1 of each year 1966-1971, inclusive.

North Side and the downtown area. The cold mix patches are regarded as a temporary measure, but they keep the chuckholes and payement breaks from becoming larger, Supt. W. M. Laughlin said. Hot mix blacktop cannot be obtained except in warm summer months. Blacktop plants turn out the hot mix in the normally sunny. dry months when major street

projects are under way. The city obtained two pickup loads of the cold mix yesterday from a Canton supplier. One load was applied to streets in the Pleasant Heights area. The second truck crew worked during the morning in the St. Clair Ave. area and switched to the downtown district after noon when stores were closed and traffic was correspondingly light.

Laughlin said the street patching has been continuing regularly since daily average temperatures climbed above freezing. The cold mix patches admittedly are not tained for the summer street re-

Gengarella's Regains Tri-State Cage Title From Riverview

Captures Fourth Giants Survive Late Threat To Top Bucs Crown In 5 Years

Midland Entry Scores 69-63 Victory In 36th Classic

By BOB DUFFY

Away from the winner's circle for one year, Gengarella's returned to capture its fourth Tri-State Tournament championship Wednesday night by handing Riverview Florists a 69-63 setback before some 500 fans at Memorial Auditorium.

It was a revenge victory for the Midland squad which had won three straight Tri-State tourney titles up until last year when the crown shifted to Riverview Flor-

accepted the trophy following last night's contest. His team was a collection of outstanding college players from five colleges.

The championship marked the fourth in five years for Gangarellas, with Frank Chan, Potter reserve coach, at the helm each

To gain the finals, Gengarella's defeated Baron's Cafe of Steubenville, 72-54, in the semi-finals, while Riverview eliminated White's Insurance (Geneva College) 70-60.

Wednesday night's final game ended four days of firing which began last week when the tourney opened with 16 teams.

Neither team could gain an advantage in last night's final contest. The final tie occurred at 51-51 with 5:20 to go and then Gengarella's began pulling away.

Big Bob Slobodnik, who was named the tourney's most valuable player, paced Gengarella's to the points in the final game after leading the way with 16 in the semifinal contest. Slobodnik, who stands close to the 6-foot-9 mark, played his college basketball at Duquesne

SCOREBOARD Immediately Presented by

There are so-called "bargain" tires, "cheapie" tires, "discount" tires and other tires you've never even heard of.

Most of them do a lot of shouting about price. But there's a big difference in what goes into them, as compared to a Goodyear tire.

1. Goodyear gives you a stronger tire body. It's the tire body that takes the beating. And it all depends on cords and plies. So we tested our 3-T Nylon All-Weather-priced at \$12.88*-against nine other nylon cord tires in the \$10-\$12 price class or better. Goodyear's tire rated 23.2% stronger than the average rating of all the others.

2. Goodyear gives you a tougher tread. You need toughness where the tire meets the road. So, Goodyear gives you all-new tread rubber in every tire. And it pays off good: Goodyear's tread was

greater than the average of the rest.

3. Goodyear gives you greater over-all strength! Comparing the results of body tests and tread tests, Goodyear comes out way ahead. Actually, Goodyear not only proved out best on both counts but topped them all in over-all quality rating, too!

Before you part with \$10, \$11 or \$12 for any tire, get the inside story. Remember that for about the same price, you can get a lot more tire—a Turnpike-Proved Goodyear tire. It's called the 3-T Nylon All-Weather. And it costs you as little as

*6.70 x 15 black tube-type, plus tax and the old tire

NO MONEY DOWN with your old tire. Pay as little as \$1.25 a week.

GOODYEAR NATION-WIDE GUARANTEE

1. Road Hazard Guarantee-All new Goodyear automobile tires are guaranteed by written certificate against normal Road Hazards-i.e. blowouts, fabric breaks, cuts-except repairable punctures. This guarantee limited to original owner for number of months specified.

2. Lifetime Guarantee-All Goodyear tires are guaranteed against any defects in workmanship and material without limit as to time or mileage. Remember, wherever you and your family drive, any Goodyear tire dealer

(in all 50 states, there are over 60,000 of them) will repair your damaged tire without charge, or make you an allowance toward the purchase of a new tire, based on the original tread depth remaining and the current "Goodyear Price."

PTA Returns 2 As Officers

Don Derrington was re-elected to a second term as president when the LaCroft Parent - Teacher Association met Tuesday night.

Mrs. Viola Densmore was returned as treasurer. New officers elected are Donald Poole, vice president, and Mrs. Delores Taubert, secretary.

The group approved plans to purchase a public address system for the school with proceeds from the annual carnival. The equipment will cost approximately \$140.

An auditing committee, Mrs. Agnes Hood, chairman, Glenn Rutledge and William Jones, was named and instructed to report at the next meeting.

Charters were presented by Chief Petty Officer James Pattison to Boy Scout Troop 74 sponsored by the PTA. James Steiner was installed as institutional representative, but later announced his resignation because of plans to move into another school district.

Six members will attend the East District conference in Canton April 24. Derrington conducted

Sixty per cent think themselves incapable of making the right vocational decision; 40 per cent doubt their ability to do anything well; 56 per cent do not know what kind of work they are best suited for and 53 per cent want more vocational advice than they are getting.

Many high schools have vocational advisers and there's popular cry for more of them. Some school systems provide vocational guidance tests which measure interests, intelligence and individual talents.

Also there are available private testing services for like purpose. Some parents spend large fees for this service even on the child as young as nine or ten.

Although such measures don't always fulfill the hopes they arouse, they sometimes prove helpful.

AND WHAT about bright girls? Should they be trained to earn a living or merely be educated? Dr. Mildred McAfee, former president of Wellesley College,
